Assembly Instructions

WYS/SRPT – Square & Circular Table

List of parts in fixings pack

40x M8x60 Bolts

40x 25mm Cap

16x M8x95 Bolts

2x Allen Keys

When assembling, loosely bolt together until fully assembled then tighten all the bolts.

1. Place the table top upside down on a flat surface, taking care to protect the top from scratching.
2. Taking one diagonal table leg at a time, bolt to the blocks on the table using two 60mm bolts and connecting caps.
3. These blocks are offset so the table legs line up. Next bolt the long cross rails to the bottom of the legs using two 90mm bolts in each leg. The chamfered ends at this point should face upwards, and the shallow notches should face each other to allow space for a parasol.
4. Now take your seats and again bolt them to the ends of the cross rails using two 90mm bolts and caps. At this point go around the whole table tightening each bolt.
5. Taking the seat legs, these are right hand and left hand depending on the position of the threaded insert, bolt to the outside of the seat blocks using two 60mm bolts and caps.
6. Lastly bolt the diagonal braces between the leg and seat base using two 60mm bolts and locating them in the threaded inserts, now tighten all the remaining loose bolts and with the help of three other people turn the table over carefully and place in position.
